Who are we?

The Edge brand was established in the late 1990s and has grown to become one of the UK's leading professional nail care brands. Our aim from the start has always been to provide a wide range of innovative professional nail care products at competitive prices without compromising on quality.

Our factory, warehouse and customer service team are all based in the UK and we have over 250 wholesalers and cash and carry outlets throughout the UK stocking our products.

We also have a growing list of international distributors around the globe who like us share our passion for working with top quality professional nail care products.

Let's talk nail files

As well as having a product range of over 500 different products under our own brand name we do also have an area of our business that specialises in sourcing and supplying professional nail care products for other companies within the nail industry. Our managing director has been in the nail industry for 35 years and has been producing high quality nail files for some of the biggest names in the nail industry for the last 30 years. Whether it's supplying nail files in bulk to supermarkets or custom branded files, buffers or blocks to a nail technician we are proud to say that our UK based factory is the UK's biggest manufacturer of nail files. Our experience producing nail files ensures that our customer service team and factory can work closely with you every step of the way to produce a nail file that works perfectly with your desired specifications.

The nitty gritty

With so many different types of nail files on the market it's important to make the right choice when placing your order. We have put together a guide for you to help explain a little more about each of the files, buffers and blocks that we are able to supply and how they can be used on the nail.

Files

Duraboard / Black Curved Cushioned File

A cushioned file that is made from the finest quality abrasive - Silicon Carbide. A sharp long lasting abrasive that can be used wet or dry and can be sanitised. Available in any grit combination.

Jumbo Extra Cushioned File 120/240

An extra cushioned file that is made from the finest quality abrasive - Silicon Carbide.

Zebra / Curved Cushioned File

A cushioned file using Zinc Stearate abrasive. It's soft on the cuticles, and is highly recommended for the surface of the nail. This popular file also resists clogging from acrylics. Available in any grit combination.

Foamie Files

The abrasive is applied directly to the foam. Soft and flexible file to sand the surface of acrylics and artificial wraps quickly and easily. Available in Purple 80 grit, Orange 180 grit and Blue 220 grit.

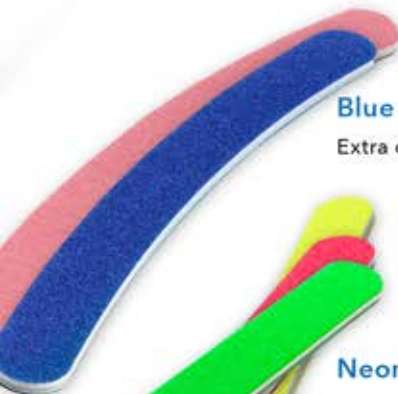

Mylar Cushioned Files

Premium Aluminium Oxide Resin Bonded abrasive that is bonded to a Mylar film. The most durable, long lasting available. The file is waterproof and can be sanitised. Available in Red 80 grit, Peach 180 grit and Yellow 240 grit.

Polar Cushioned Files

Extra durable Aluminium Oxide abrasive. Long lasting, waterproof and can be sanitised. Does not leave black dust on the nail.

Blue / Pink Curved Cushioned Files

Extra durable Aluminium Oxide. This file is not waterproof.

Brown Coarse / Plus Cushioned File

A tough resin bonded Aluminium Oxide abrasive. Washable and can be sanitised.

Neon Cushioned Files

Extra durable Aluminium Oxide abrasive. This file is not waterproof.

Regular Emery Boards

Made from a garnet abrasive on a flexible veneer.

Black Beauty Emery Board

Silicon Carbide abrasive. A sharp long lasting medium abrasive on a flexible veneer. Washable and can be sanitised.

Versafle Emery Board

Silicon Carbide abrasive. Coarse and medium grits applied to a flexible veneer.

Teardrop Black Cushioned Files

A tapered cushioned file using Silicon Carbide abrasive. Washable and can be sanitised.

Teardrop White Cushioned File

A tapered cushioned file using an extra durable Aluminium Oxide abrasive. Long lasting and washable.

Bridge Black Cushioned File

A cushioned bridge shaped file that is made from the finest quality abrasive - Silicon Carbide. A sharp long lasting abrasive that can be used wet or dry and can be sanitised. Available in any grit combination.

Printed Fun Files

Personalised 7" cushioned nail file using full colour process. A perfect promotional accessory. Fine and medium grits.

Buffers

3-Way Satin Buff Blk/Wht/Grey 5/8" x 6"

The original 3-way nail shiner. Smooths, buffs and shines surfaces all in one. Produces a beautiful long lasting deep shine on natural and artificial nails.

3-Way Nail Shiner Blk/Wht/Grey 7"

The 3-way nail shiner. Smooths, buffs and shines surfaces all in one. Produces a beautiful long lasting deep shine on natural and artificial nails.

3-Way Jumbo Nail Shiner Blk/Wht/Grey 7"

The 3-way nail shiner with extra cushion. Smooths, buffs and shines surfaces all in one. Produces a beautiful long lasting deep shine on natural and artificial nails.

4-Way Buffer/shiner Blk/Blk/White/Grey

The 4-way buffer has the extra black abrasive for filing the edge of the nail.

3-Way Diamond Nail Shiner

The 3-way nail shiner. A larger surface area. Smooths, buffs and shines surfaces all in one. Produces a beautiful long lasting deep shine on natural and artificial nails.

2-Way Super Shiner 7"

The famous two sided nail shiner creates a high gloss shine on the surface of the nail.

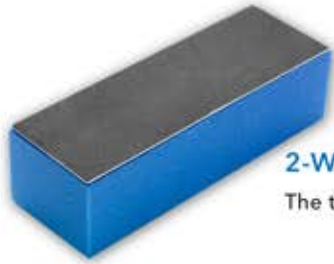

Blackjack Buffer 128mm x 8.4mm x 20mm

A soft padded buffer for smoothing and finishing nail enhancements.

Blocks

2-Way Polishing Block

The two sided block creates a high gloss shine on the surface of the nail.

3-Way Polishing Block

The 3 step nail shining block. Produces a beautiful long lasting shine on natural and artificial nails.

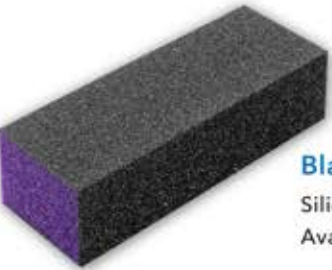

4-Way Miracle Shining Block

The 4-Way shining block has the extra black abrasive for filing the edge of the nail. Creates a high gloss shine on the surface of the nail.

White Sanding Block

The most popular manicure sanding block. The white abrasive is sprayed directly onto the foam. Flexible and does not leave black dust on the nail. Available in Pink.

Black Sanding Blocks

Silicon Carbide abrasive is sprayed directly onto the foam. Flexible and washable. Available in Purple 60/100, Orange 100/180 and Blue 300/300.

Let's talk grits

Files are graded depending on how many grit particles per square inch the abrasive contains.

The higher the number the more particles, so the file will have a finer surface.

The lower the number the fewer particles, so the file will have a coarser surface.

For example: 240 grit medium/fine, 180 grit medium/coarse, 100 grit coarse, 80 grit very coarse.

Logo printing

We can also arrange for your company name or logo to be printed on one of your favourite nail files. Custom branded nail files could be a great gift your customers or even for you or your staff to use on with client. Minimum orders apply, contact our team for a quote.
